

Saritha Thota

Peddapuram , India • 7993740115 • sarithatota956@gmail.com

Professional Summary

Computer Science Engineering undergraduate (Batch 2028) with strong coding skills and a solid foundation in Data Structures and Algorithms. Passionate about software development and problem-solving, with hands-on experience in building web applications using modern technologies. Actively seeking a Software Developer Intern role to apply programming skills, learn from industry experts, and contribute to impactful real-world projects.

Education

Aditya University — B.Tech in Computer Science and Engineering

2nd Year | Expected Graduation: 2028

Technical Skills

Programming Languages	C, Python, JavaScript, TypeScript
Data Structures	Arrays, Strings, Linked Lists, Stacks, Queues, Trees (Basics)
Frontend	HTML, CSS, JavaScript, TypeScript
Backend	Node.js (Basics)
Tools	VS Code, GitHub, Hackerrank, CodeChef

Certifications

- Frontend Developer – Infosys
- Node.js – Course Completion
- TypeScript – Course Completion
- C/C++ Programming – Course Completion
- Python Programming – Course Completion
- Java – Course Completion
- DBMS - Course Completion
- Express.js – Course Completion
- React.js – Course Completion
- JavaScript – Course Completion
- HTML – Course Completion
- CSS – Course Completion

Strengths

- Strong problem-solving and analytical skills

- Good understanding of core computer science fundamentals
- Quick learner with a passion for coding and software development
- Good teamwork and communication skills

TECHNICAL SKILLS

Frontend Development

- HTML5
- CSS3
- JavaScript
- TypeScript
- Responsive Web Design

Backend Development

- Python
- Node.js (Basics)
- REST API Fundamentals

Database Concepts

- Basic knowledge of database design
- Understanding of data integrity and efficient data retrieval

Programming & Core Concepts

- C Programming
- Data Structures: Arrays, Strings, Linked Lists, Stacks, Queues, Trees (Basics)
- Object-Oriented Programming

Tools & Platforms

- VS Code
- Git & GitHub
- HackerRank
- CodeChef

Projects

1. Student Course Registration System (Java)

- Developed a Java-based application to manage student course registrations efficiently.
- Implemented features like student login, course selection, and registration management.
- Used Object-Oriented Programming (OOP) concepts for modular and scalable design.
- Ensured proper validation and handling of student and course data.

2. Doctor Appointment System (AMSD)

- Designed a system to streamline booking and managing doctor appointments.
- Enabled functionalities such as patient registration, appointment scheduling, and doctor availability tracking.
- Focused on improving user experience and reducing scheduling conflicts.
- Applied software design principles learned in AMSD subject.

RELEVANT EXPERIENCE & CAPABILITIES

- Developed interactive and responsive web pages using HTML, CSS, and JavaScript.
- Integrated front-end components with backend logic.
- Wrote clean, maintainable, and structured code following best practices.
- Practiced problem-solving through competitive coding platforms.
- Familiar with debugging, troubleshooting, and optimizing basic applications.
- Actively learning modern JavaScript frameworks and scalable backend development using Python.
